WORK EXPERIENCE:

Consulting Firm, New York, NY
Associate (5/06 – Present)

2004 - Present

- Performed strategic due diligence, market sizing and growth analysis for private equity client
 - Estimated addressable market for target's healthcare technology solutions in payor and provider markets
 - Worked closely with client and target management to refine assumptions and inputs into investment thesis
- Developed perspective of synergies achievable from merger of two \$10B+ organizations
 - Worked closely with executives of both firms to develop key assumptions around business case for merger
 - Scoped, validated and syndicated synergies achievable from potential merger (merger has not been announced)

Business Analyst (7/04 – 5/06)

- Explored opportunities to divest software division from a major wholesale bank
 - Outlined opportunities to carve business unit from organization and sell to external software vendors
 - Developed revenue and cost model for bank (pre- and post-divestiture) to support C-level decision making in advance of engagement with an investment bank (bank has chosen to hold division thus far)
- Top-line growth strategy for leading property and casualty insurer
 - Drove creation of new online presence and marketing strategy for client's primary insurance product
 - Identified product differentiation opportunities via integration of online presence with captive-agent model
 - Anticipated results include defense of industry leading market share via annual revenue growth of \$120M+
