EXPERIENCE

Blackrock

*Strategic Partners Analyst
Summer Analyst*

New York, NY
*June 2019-Present
May 2018-August 2018*

- Evaluate diverse portfolios of alternative investments for secondary opportunities across asset classes including private equity, venture capital, growth equity, real estate, and infrastructure
- Build financial models to project fund performance and underlying portfolio company performance based on financial statements, manager update reports, diligence calls and independent research
- Conduct in-depth due diligence on top-tier asset managers to assess and pitch primary investment opportunities
- Evaluate and pursue a range of additional investment opportunities including co-investments and GP-led transactions
- Contribute to various projects related to the launch of Blackstone's first impact investing fund, including conducting industry research, testing proprietary impact measurement methods and preparing investor presentations
- Co-write investment committee memorandums and attend investment committee meetings with senior executives

Reservoir Capital Group

Investment Team Summer Intern

New York, NY
July 2017-August 2017

- Conducted research and built financial models for current and potential future investments across multiple industries including telecommunications, energy, and real estate
- Participated in conference calls and in-person meetings with corporate senior management teams and communicated directly with CEO's and CFO's to collect financial data and discuss strategic business plans
